

DLD Social Media Coordinator

The Dutch Language Division (DLD) is looking for a social media coordinator. As you might know, the DLD has a Facebook page and a Twitter profile.

Through both these venues the division tries to post interesting content related to the Dutch language, Dutch culture, and translation to keep its members engaged.

An additional goal of the DLD is to keep its members informed of important announcements by the American Translators Association.

This task is not very time-consuming. Do you already use social media and read interesting #Dutch content? Then these regularly posted updates should not take a lot of time whatsoever. So give it a shot!
